

	<p>1</p> <p>Water temperature doesn't affect parasite populations. True or False?</p> <p>For answer, go to number 7.</p>	<p>2</p> <p>Sea lice don't bother salmon because their scales protect them. True or False?</p> <p>For answer, go to number 6.</p>	
<p>8</p> <p>Salmon farms don't affect wild salmon stocks. True or False?</p> <p>For answer, go to number 4.</p>	<p>1</p> <p>True. Farmed salmon require more antibiotics to keep diseases under control.</p> <p>8</p> <p>Due to poor management, some other countries have wiped out their wild salmon stocks.</p>	<p>2</p> <p>False. They not only attack salmon but other fish as well. Fish farm advocates reassure the public that medications to control sea life are effective.</p> <p>3</p> <p>It is clear that people for and against salmon farming have very different opinions on this statement. Further research is required.</p>	<p>3</p> <p>Wild Salmon stocks may be at risk due to farmed salmon.</p> <p>True or False?</p> <p>For answer, go to number 5.</p>
<p>7</p> <p>Studies have shown that farmed salmon have greater concentrations of toxic pollutants than wild salmon. True or False?</p> <p>For answer, go to number 1.</p>	<p>7</p> <p>False. Small increases in water temperature can provide a breeding ground for parasites as they flourish in warmer temps.</p>	<p>4</p> <p>True. Farmed salmon affect wild salmon in many ways. Parasites are one of the negative effects.</p> <p>4</p> <p>Other countries have already had their wild salmon stocks decimated due to fishfarms.</p> <p>True or False?</p> <p>For answer, go to number 8.</p>	<p>4</p> <p>the negative effects of salmon farming outweigh benefits of salmon that the economic Baby salmon are especially vulnerable.</p> <p>5</p> <p>False. Many agree with this but there are others who disagree and believe that the economic benefits of salmon farming outweigh the negative effects.</p>
<p>6</p> <p>Sea lice only affect the salmon... they are not harmful to other sea lice. True or False?</p> <p>For answer, go to number 2.</p>	<p>6</p> <p>Sea lice only affect the salmon... they are not harmful to other sea lice. True or False?</p> <p>For answer, go to number 2.</p>	<p>5</p> <p>Researchers found juvenile salmon exposed to 30,000 times the normal risk of parasitic infection due to fish farms. True or False?</p> <p>For answer, go to number 3.</p>
